Product Description

KL99 Electric Long Tube Supplied Air Respirator, Breathing Apparatus

>>>Product description

KL99-LT Series Electric Long Tube Supplied Air Respirator is a device used to prevent inhaling harmful gases, dust, smoke and other pollutants and to protect users from lack of oxygen. The KL99-LT series device is widely applied in the fields of chemical, petrochemical, pharmaceutical, gas, urban underground construction and other industries.

The KL99-LT4 electric long tube supplied air respirator consists of a full face mask, a waist belt, a hose and a blower.

Features:

1. Fresh air is supplied to the user by a blower through a long non-toxic, odourless tube to protect personal safety.
2. No time-limit
3. The blower provides air continuously into the facemask, maintaining a higher pressure than the atmospheric pressure and preventing mask from the penetration of harmful gases.
4. 220V AC power supply.
5. Tube is 20m long and the length can be optional.

Technical Specifications

Mode	KL99-LT4
Flow Rate	>100 L/Min
Air Pressure	>1000 Pa
Leakage Rate	<0.10
Power Rating	180 W
Voltage	220 V AC
Rating	
User Number	1
