

200 Times Waterproof Powered Air Purifying Respirator For Personal Protection

Our Product Introduction

Basic Information

- Place of Origin: Jiangsu, China
- Brand Name: KELISAIKE, KELISAIKE
- Model Number: KL99-PAPR
- Minimum Order Quantity: 1PC
- Price: \$270.00/sets 1-9 sets
- Packaging Details:
 1. PAPR Portable Powered Air Purifying Respirator
 2. One safety carton box
 3. One box in carton, carton size: 60*45*20cm
- Stock: 1PC

Product Specification

- Function: Air Breathing Apparatus PAPR
- Battery: 12V/3400mAh Chargeable Li-ion Battery
- Charging Cycle Times: 200 Times
- Working Hours At Full Power: >4 Hours
- Air Output Gear: 145L/min
- Acoustic Sound Level: <50dB
- Weight: <850g
- Alarm: Automatic Detection And Warning Of Low Voltage
- Highlight: 200 Times Powered Air Purifying Respirator, Personal Powered Air Purifying Respirator, Waterproof Full Face Papr Respirator

Product Description

Reusable waterproof Powered Air Purifying PAPRs head gear personal protective Equipment

Product Application

The KL99-PAPR is a battery-powered fan that together with a filter and an approved head top, is included in the fan-assisted respiratory protective device systems. This applies particularly to work that is hard, warm or of long duration. The human interface may consist of a hood, face shield, half mask or full face mask. The fan is equipped with a filter, and the filtered air is fed through a hose to the human interface. The pressure then generated prevents surrounding pollutants from penetrating into the mask. Power blower unit provides filtered air for the widest range of industrial applications as diverse as industrial welding, agriculture and waste disposal.

Instruction

- 1.Positive Air Pressure (fan): Makes for a superior fit. Does not require a "perfect seal." Immune to leaks.
- 2.Ubiquitous Filters: The same 99.97%+, FDA-approved viral filters used in hospitals.
- 3.Common Components: Viral filter; blower; mask or hood; charger.
- 4.Full Coverage: Protects the entire head and face against airborne and splash risks.
- 5.Field Tested: Provides protection and comfort for 4+ hours.
- 6.Reusable, Disposable, and Easily Sterilized: No problems with disinfectants making shields 7.opaque, creating holes in gear, or exposing workers to a harmful class of chemicals for 8.extended periods of time.

Technical Parameter

| | |
|-----------------------------|--|
| Battery | 12V/3400mAh chargeable Li-ion Battery |
| Working hours at full power | >4 hours |
| Charging Cycle Times | >200 times |
| Charging Cycle Times | >200 times |
| Air output gear | 145L/min |
| Acoustic sound level | <50dB |
| Size | 185(length) x 162(width) x 101(height) |

| | |
|---|--|
| Weight | <850g |
| Cartridge or Filter Include | With three replaceable filters to remove aerosol |
| Green LED power indicator | |
| Fast lock and unlock structure | |
| Automatic detection and warning of low voltage | |
| Normal use after 7J energy shock | |
| Heat-resistant and cold-resistant | |
| It can be normally used after being stored under the concentration of 5000ppm hydrogen tetroxide steam for five hours | |
