

Customized Outdoor Air Quality Sensor AQMS For Air Monitoring

Our Product Introduction

for more products please visit us on multi-gasdetection.com

Basic Information

- Minimum Order Quantity: 1PC
- Price: \$5,000.00/sets >=1 sets
- Stock: 1PC
- Shipping Method: LCL, AIR, FCL, Express
- Payment Terms: T/T, Western Union, MoneyGram, Paypal

Product Specification

- Product Name: Ambient Air Quality Monitor
- Customized Support: OEM, ODM
- Usage: Air Quality Monitoring
- Weight: 10 Kg
- Power Supply: 220V 50HZ Or Customized
- Alarm Type: Sound+Light Alarm
- Sensor Type: Electrochemistry
- Port: FOB Nanjing / FOB Shanghai
- Highlight: **AQMS Air Quality Sensor, Customized Outdoor Air Quality Sensor**

Product Description

Our Product Introduction

for more products please visit us on multi-gasdetection.com

H6 Micro Ambient Air Quality Monitoring System is an economical product for providing real-time and accurate detection of outdoor air pollutants, with the performance close to the level of automatic monitoring system. Compared with lower price alternatives on the market, H6 provides accurate detection data comparable to standard stations. After calibration on site

according to certified reference standards, it can reach the optimal traceability. Therefore, as an air quality monitoring system, it has high cost efficiency.

Main Features:

- * No need to change the sample cutter, able to measure the mass concentration of PM10 and PM2.5;
- * On-site calibration according to traceable reference standards;
- * Optional zero gas calibration modules;
- * Imported high precision four- electrode sensors;
- * Modular design for configuration of any combination, easy to set different monitoring parameters on demand, suitable for large-scale grid distribution points
- * Embedded processor of industrial grade for the circuit, suitable for harsh outdoor environments, with working environment temperature range of -50 to 100 ;
- * Dynamic heating control for air particulate sampling to remove the influence of water and fog on the measured data;
- * An electronic flowmeter used to the measure the sampling flow speed of particulates and gaseous pollutants.
- * Stable and reliable data transmission with the industrial grade data transmission module;
- * Dual-channel communication mode to realize communication in extreme cases and ensure data continuity;
- * Modular design, and high reliability CAN bus communication between modules; automotive electronic communication protocol to ensure the stability of the system;
- * Remote data transmission and system state information readable remotely, as well as remote control, remote modification of instrument parameters, and fault diagnosis;
- * Remote upgrade of terminal applications via the FTP server to realize tele-maintenance and ensure that users can use the latest applications and update system functions timely;
- * Optional five meteorological parameters tester;
- * Optional IP cameras with various parameters to ensure night and visual range shooting requirements, with automatic snapshot and real-time monitoring functions.
- * On-site real-time data display: end instruments renew data every 5 seconds.

Gases	Measurement range(ppb)	Resolution (ppb)	LOD(ppb)	24 h drift zero / ppb
O3	0-1000	1	≤10	5%F.S
NO2	0-1000	1	≤10	5%F.S
CO	0-20000	1	≤150	5%F.S
SO2	0-1000	1	≤10	5%F.S
H2S(optional)	0-20000	1	≤150	5%F.S
VOC(optional)	0-40000	1	≤150	5%F.S

Company Profile

THE FACTORY

Nanjing KELISAIKE has passed ISO9001 International Quality System Certification, which ensures all products' excellent performance and competitive prices.

Nanjing KELISAIKE Company is one of the largest safety equipment manufactures, possessing the most complete production range and specifications in the safety equipment industry of mainland China. Nanjing KELISAIKE was founded in 2004, including three subsidiaries in Beijing, Xi'an and Xinjiang, and more than 30 domestic sales service centers, with total registered capital of 5.16 million Yuan.

Standard products and services cover the portable gas detector, fixed gas transmitter, wall-mounted gas detector, gas detector control unit, air breathing apparatus etc. Also Nanjing KELISAIKE is an experienced factory for OEM service, providing professional design and construction of the customize products. The products are widely used in fields of petroleum, chemical, gas transmission and distribution, warehousing, municipal gas, fire fighting, environmental protection, metallurgy, pharmacy, energy and power industry.

Nanjing KELISAIKE is the leader enterprise of the science and technology, persisting in creating core competencies by the core technology. In the company, there is one professional and technical talent team who masters core technology, including more than 10 senior technicians and masters.

Nanjing KELISAIKE has passed ISO9001 International Quality System Certification, which ensures all products' excellent performance and competitive prices.

KELISAIKE Faith: *People-oriented and technology-innovated*

KELISAIKE Principle: *Quality first, integrity-based*

FAQ

1. Our Services

1. For all our products, we offer a 1 year warranty and life-long maintenance.
2. All inquiries will be replied in 24 hours.
3. We will provide technical support; our engineers will help to solve the problems you met.
4. We can provide OEM and ODM service.
5. Our factory is located in Nanjing city, welcome to visit our factory.
6. All products will be fully checked and well packed before shipment, and qualification certificate will be provided.

2. Why should you choose KELISAIKE?

1. Mutual benefits: We are a manufacturer, so we can offer products of the same quality at the best prices.

2. Professional engineers: We have seasoned engineers with over 10 years' experience in gas detection field. With various hi-tech

equipment, we make products with higher accuracy and stability.

3. Customization: Thanks to our strong R&D team, we can customize our products at your request.

4. Free OEM service: a) Silk-print your Logo (≥ 100 PCS). b) Design your colour box packing (≥ 200 PCS).

5. Mixed order: We accept mixed orders, with different models and small quantity orders.

6. After service: (a) 1 Year warranty. (b) If you found any of our products of inferior-quality, we will send you new ones to

replace them for free in the next order after verification.

3. FAQs:

Q: Can I order one piece as a sample to test the quality?

A: Yes, we recommend ordering sample for quality check before large quantity order.

Q: May I have your catalogue and price list for trial order in MOQ quantity?

A: All our products are shown on Aalibaba.com; please have a detailed look and choose the interested models in the website. Or you can send email to us directly for more product information.

Q: If I order a large quantity, what's the best price?

A: Please send the detailed enquiry to us, including item model number, quantity for each item, quality requirement, Logo and payment terms, shipping method, discharge place, etc. We will make an accurate quotation to you at the earliest time.
