

ATEX Iecex UL K800 Fixed Detector for Petro Energy

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: KELISAIKE
- Certification: CE, UL, ATEX, IECEX
- Model Number: K800
- Minimum Order Quantity: 1pc
- Price: USD\$280
- Packaging Details: carton package
- Delivery Time: 10days
- Payment Terms: T/T
- Supply Ability: 1000pcs, 2weeks

Product Specification

- Highlight: **ATEX certified portable gas detector, IECEX approved petro energy detector, UL listed fixed gas detector**

Product Description

K800 Fixed Gas Detector – an advanced and reliable gas detection system designed to safeguard lives, assets, and the environment. Basing having 3 or 4 wire, 4 to 20mA analog output with relays, it also offers RS485 MODBUS output and HART, making it compatible with most control system. The fixed point detector with in-built alarm and fault relays for the protection of personnel and plant from flammable, toxic and oxygen gas hazards in potentially explosive atmospheres, both indoors and outdoors.

Precision Detection: Cutting-edge sensors for accurate gas detection

- Electrochemical sensors
- Poison immune infrared sensors
- Poison resistant catalytic bead sensors

Versatile: Detects a wide range of hazardous gases for diverse industries, Flammable (catalytic or infrared), toxic and oxygen versions available

Real-time Monitoring: Continuous monitoring and instant alerts for proactive action.

User-friendly: LED light status indicator for fault and alarm conditions

Rugged Build: Built to withstand tough environments with durability.

Simple Installation

- Integral mounting bracket
- Removable plug/socket type terminal blocks for ease of wiring

Cost Effective

- Common transmitter platform
- Minimal training required
- Reduced spares
- Plug-in sensor replacement
- MODBUS multi drop option offers cabling savings
